

Wooden wall panel is an innovative product for wall decoration. Each panel is unique handmade of various tree species, different length, width and thickness of details, which are combined on the base in a beautiful article, also is available models without base. For base is used OSB Superfinish ECO, which one is developed and manufactured entirely in compliance with the current demand of ecological living focused on organic materials. Surface of panels are a beautiful mix of shades- from gray to brown and from light yellow to black. Some of our panels are made from reclaimed wood, that have been exposed in the rain, sun and wind for hundred year. Just a few square meters of wall covering panels bring your room interior in a memorable accent, and will create the warmth and cosines.

Picture	Product code	Description
